The following is an examiner's statement of reasons for allowance: none of the cited references shows or suggests the claimed material. Claim 1 the only independent claim sets forth limitations to a saw having a specific chuck. It is comprised of a bushing, a slide, a sleeve, a holding ball, and a guide rod. The bushing holds the slide in a slot and a rod moves it axially when the sleeve is turned. The sleeve is biased by a helical spring. That specific combination has not been shown or suggested by the prior art citations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
